Data Recovery Services

Effective 1/1/2015

AIT provides the following hard drive data recovery services:

Service	Description	Rate
Automated Recovery	In-shop recovery of all readable data on a faulty hard drive. Includes removal of the drive from the computer. The recovered data is copied to a portable hard drive.	\$135.00
Laboratory Recovery Evaluation	Data that cannot be recovered via Automated Recovery, can often time be manually recovered in the lab. The first step in this process is to produce a Laboratory Recovery Evaluation which consists of a list of the files that can be recovered, and a quote for the actual recovery.	\$195.00
Laboratory Recovery	Laboratory Recovery of data from a failed hard drive. The drive is first repaired, and then the data is copied off to a new hard drive. The cost varies depending upon the nature of the repair. The exact amount is provided in the Laboratory Recovery Evaluation.	\$600 to \$2,600
